

SAFETY TOOLBOX TALK

Ref:	064	Author:	D Bibby	Date:	08.02.2024
Topic:			WASTE ACCEPTANCE AND DOCUMENTATION PROCESS		

This briefing is not intended to tell you how to do your jobs, it is designed to help keep you safe. We want everybody to be able to return home safely to their family and friends at the end of each day.

The following compliance checks are to be carried out prior to the acceptance and movement of any waste:

1. What information do I need from the customer?

- Name and address of producer.
- Name and address of the site.
- Description of the waste.
- Site Investigation Report.
- Stockpile testing.
- Quantity of waste to be removed.
- Date of first waste collection

2. Pass all information to the Waste Advisor (Zowi or Tom)

3. If the producer requests Fox/Hurts to complete the WTN, Waste Advisor is to

- Forward SI or stockpile testing to waste assessor at the designated tip for categorization.
- Once approved, complete the WTN, Waste Declaration and Segregation Statement as required.
- Obtain signatures from Producer Carrier and Disposer.
- Record details in the Waste Transfer Audit Spreadsheet.
- Provide a copy of the WTN for the producer and disposer.
- Retain a copy of the WTN documents for audit purposes.

4. Ensure all details are passed to the relevant Transport Office for action.

5. Things to remember.

- Never accept a job without the correct SI or Testing.
- Ensure a WTN is in place and signed prior to moving any waste.
- It is a legal requirement to retain Non-Hazardous WTN's for at least 2 years.
- It's a legal requirement to Retain Hazardous Consignment Notes for 6 years.

**Discussion Points**

Who are the 3 copies of the hazard WTN for?

Who do you contact if the material is different than you have been told to pick up?
