

SAFETY TOOLBOX TALK

Ref:	068	Author:	D Bibby	Date:	08.02.2024
Topic:		Waiting To Be Loaded			

This briefing is not intended to tell you how to do your jobs, it is designed to help keep you safe. We want everybody to be able to return home safely to their family and friends at the end of each day.

Wagon Driver and Pedestrian Safety on Construction Sites

- If a banksman is used on any site, all wagon drivers should follow instructions given and not move their vehicle unless directed.
- In the absence of a banksman, all wagon drivers to remain in their cabs while on site.
- If a pedestrian exclusion zone is established, do not enter any prohibited area on foot. This will be marked out on the site plan and relayed during induction.
- If visibility is poor and inhibiting safe operation, place buckets on ground and switch off machine until visibility improves.
- Prior to loading operation, ensure area is clear of pedestrians and that there are no personnel within working radius of machine or within the falling object exclusion zone.
- Excavator operative is not to slew over wagon cab during loading operation.
- Wagon driver to remain in cab during loading operation.

Discussion Points

How would you know that the loading is complete if a banksman is absent?
