

SAFETY TOOLBOX TALK

Ref:	079	Author:	D Bibby	Date:	08.02.2024
Topic:			Recording Accidents		

This briefing is not intended to tell you how to do your jobs, it is designed to help keep you safe. We want everybody to be able to return home safely to their family and friends at the end of each day.

The Accident Book is an essential document for **employers and employees**, who are required **by law** to record and report details of specified work-related injuries and incidents.

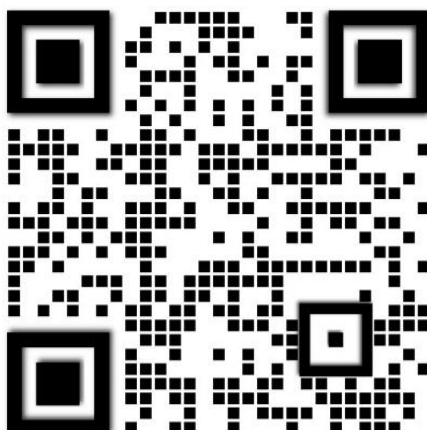

It enables businesses to comply with legal requirements under social security and health and safety legislation, including Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) requirements.

Fox Group now operates a cloud-based accident book that covers all sites, removing the need for a book at each place of work.

A QR code has been produced to provide access to the reporting form.

Accident Report Book

Scan QR Code Below

ALL accidents must be reported through the code, and they will all be investigated by the FoxSafe team.

Accidents that aren't recorded cannot be investigated and might happen again!

Discussion Points

Are you happy how the QR code works and how to fill in for the accident book?
