Quarry Manager Rules

Employees' General Conduct Rules

It should be noted that rules placed in writing by the Quarry Manager become legally binding under the Quarry Regulations (1999) and should be adhered to as the Regulations itself. This means that it is an offence not to comply with these rules and other instructions (verbal or written) given by the Quarry Manager or his appointed Deputy.

1. Employees must not negligently or willfully do anything likely to endanger the safety of the quarry or the health and safety of persons employed at the quarry.
2. Employees must not neglect to do anything required to secure the health and safety of all persons that may be affected by the works undertaken by the quarry.
3. Employees must not (without the permission of the manager/supervisor) remove, alter or tamper with anything provided for securing the health and safety of persons employed at the quarry.
4. Employees aware of the risk of imminent danger must, as soon as possible, take any counter measures within the scope of their normal duties and report this danger to management ASAP.
5. No person shall drop or throw down any material in any manner likely to cause danger to others.
6. Plant operators must not occupy themselves with games, use their mobile phones, read or similarly occupy themselves when operating mechanical plant.
7. All combustible waste must be placed in the skip provided.
8. When carrying out burning and welding work on mobile plant, a Permit to Work must be obtained from the Manager.
9. Fire extinguishers must not be removed from their normal position unless they are required for use and must not be obscured by materials.
10. All items of protective equipment must be worn when it is designated to do so, and any unserviceable equipment must be reported to the Manager immediately.
11. Hearing protection must be worn in any areas identified by risk assessment and marked with blue notices.
12. All accidents and near misses must be reported immediately to the Manager.
13. All canteen and washing facilities must be kept clean and tidy at all times.
14. The tidiness of the quarry is important. Litter must not be dropped, and untidy areas cleaned up as soon as possible.
