

Confined Spaces Permit

Applicability: This permit establishes that all hazards have been identified and controlled and it lists the confined space entry supervisor and authorised entrants and attendants. For more information, see Confined Spaces Standard [HSW-SSTD-HPC-036](#)

Instructions: This form must be signed by the authorising person (Section 6) before entry and it must be kept at the works location. Once the work is completed, the authorising person must close the permit by signing Section 7.

NB – Working in a confined space is strictly prohibited unless all other practicable measures not to enter have been considered
